Money's Taxes Down

In the application made by Mr. Richard Bailey to the Public Utilities Commission against the taxation imposed by the Town of Strathmore, and asking to have his land taken out of the town, the Board has not handed down its decision, which is in the effect that the property is to be taken out of the town, but that it is to be assessed as agricultural land, and that the maximum rate of taxes applied is not to exceed 25 cents in town and municipal. This means that the taxes imposed will be about one-half of what they were previously.

Farmers' Institute Here February 23

An announced in last issue, a Farmers' Institute will be held in the Memorial Hall tomorrow (Thursday) at which a number of well-known speakers will give addresses on subjects of particular interest to the farming community. A general invitation is extended to everyone in the district to attend.

Grain Prices Rise

The most hopeful sign of the new season has been the rapid increase in prices of all grain and also of livestock prices. No. 1 wheat was worth \$1.15 per bushel by the load at local elevators yesterday. A number of farmers throughout the district had held their grain, and these are now willing to advance. In some cases the grain had been stored at Fort William, while in others it is still on the farm.

Election On Monday

On Monday, February 27, polling will take place in Bow Valley for Councillors, also on the proposed re-division of the Municipality into divisions. This year all resident ratepayers can vote, whether taxes have been paid or not, and wives, sons, daughters, etc., of ratepayers, as laid down in the recent amendments to the Act can also vote, although their names are not on the list.

This new regulation will not effect since the opening of the present session of the Provincial Legislature. The right of ratification to vote on Council, does not entitle them to vote on by-laws.

G.W.V.A. Social

Strathmore G.W.V.A. and the Ladies Auxiliary combined in a very enjoyable social evening in this Memorial Hall on Monday evening. Following such business meetings of the two bodies, which were well attended, the adjourned to read tables, where an enjoyable two hours were spent in conversation. Supper was then served by the ladies, and following that the floor was cleared for dancing, which was carried on with much enjoyment till an early hour. The music for the dancing was kindly provided by Mr. and Mrs. Hirtle and Mr. Bert Barry, to whom the thanks of the Vets are due.

Mr. W. Clements, of Miller and Clements, Bookford, returned home on Monday, after two months spent in Boston.

Death of G. H. Wales

Much regret and surprise was expressed when news was received of the death, early on Friday afternoon, at the General Hospital, of Mr. George Harrison Wales, local agent of the Alberta Pacific Electric Co.

Though in somewhat poor health several months past, Mr. Wales' condition was not looked upon as serious up till ten days ago. On Wednesday he was taken to Calgary for a X-ray examination, and he was pronounced to be suffering from cancer of the liver. He weakened considerably but consciousness was on Friday morning, died according to the last will.

The funeral took place from Pastor E. Foster's undertaking notice, Calgary, on Sunday forenoon, and was largely attended, about twenty being present from here. He was buried in Calgary Union Cemetery, with full Masonic honors, the ceremony being conducted by Calgary Lodge No. 23.

Wm. Ben Davidson, Woodstock Master, the members of Calgary Lodge attending in large numbers to bid him farewell at Strathmore. The following members of Strathmore Lodge, H. W. Bow, C. P. Inglis, Wm. H. P. McDonald, W. C. Brown and J. P. Mackenzie, Drs. Chas. Allen and L. B. O. Lohmiller.

The late Mr. Wales came to Strathmore about four years ago, and had in that time made many friends in Strathmore by his integrity and unfailing good humor. He was a native of Lincolnshire, England, and was fifty-three years of age.

He is survived by his widow, one son and one daughter, with whom the greatest sympathy is felt in their sad bereavement.

M. D. Bow Valley Annual Meeting

Ratepayers Show Much Interest

The attendance at the annual meeting of the ratepayers of Municipal District of Bow Valley held in Strathmore, was most excellent. It was larger than any held in the history of the district, despite bad weather and snow-blocked roads. All members of the Council were present. Mr. M. D. Keoma, returning officer presided.

Nonpartisan candidates in four elections being nominated for three places, these being Messrs. Harry Graves, H. S. B. Chamberlain, C. F. Baker, and T. H. Kruse. The first three are all present members of the Council.

A large variety of subjects were up for discussion, but some of them were not dealt with adequately, the time of the meeting being largely taken up with questions from Mr. E. A. Phillips, of Carlsland, who formed an almost continual interrogation. In the discussion during the afternoon the desire was expressed for cutting down expenditure. The action of the Council in establishing a municipal fund was commended in the morning Council, and they were also instructed to back M.D. Bow Valley's action re selling of C.P.R. lands at tax sales.

The annual report of M.D. Keoma would have been printed and circulated among the ratepayers and showed the district to be in good financial shape. The auditor comments on the work of secretary-treasurer. The following "Secretary's Reports, including tax roll are well kept."

It was shown that the taxes were largely raised by Provincial Income Tax, which it was not in the power of the Municipality to alter, and education also accounted for a large proportion of the taxes.

Reve Skene, in his remarks, said that the Council's intention for the coming year was to cut expenses to the limit, and that it was probable that the road appropriation would not be more than \$700 per Council. The general financial situation demanded economy. He quoted figures to show that the provincial taxation fell much more heavily on the country than on the towns and cities, the country contributing \$120,000 to supplementary taxation as compared with \$20,000 for the other sections of the province. The per capita tax in the country was \$5.00 per head. In Calgary it was \$2.10, and in Strathmore only \$2. During last year there had been some unforeseen appropriations, the item of \$2,000 for grasshopper poison being the main one. There had also been \$2,000 for the Strathmore War Memorial. If anyone had any objections, he would like to hear them. He would have been prepared to give more if he had the power.

Cost of Administration

One of Mr. Phillips questions seemed to imply that office salaries and costs of administration were too high, and this gave Mr. Way, the secretary-treasurer, the opportunity of a most effective reply. It was pointed out that Bow Valley was one of the three most efficient Municipalities in their Province. Comparative proportion of administration and salaries were stated for a number of other municipalities as follows: The first figure showing the proportion of cost of administration to total cost, the second showing proportion of salaries to total cost:

Grasswood	5.87	2.26
Ridley	19.92	2.80
Riley	6.10	2.71
Keoma	7.37	3.18
Balderton	4.26	2.52
Bow Valley	3.47	1.78

In the subsequent discussion re expenses W. G. Kynslet said that it

M. D. Keoma Annual Meeting

Despite bad roads and weather

the annual meeting of the Keoma Municipal District, held at the Municipal office on Monday, was the best attended in the history of the district. Nonpartisan candidates were as follows: District No. 2, T. Chamberlain and P. H. Donlin. District No. 5, G. G. Dering, returning officer.

District No. 3, H. W. Powers, returning officer.

Mr. Powers takes the place of Mr. W. M. Callaway, the present Mayor, who did not attend himself for reelection. Mr. Callaway will be sworn in based on the Council Board, as he has been very active both as member and Mayor.

The only contest therefore, in division number 2, when Mr. Tom Chamberlain presented himself as a candidate for the Municipal office. Mr. Phillips, of Carlsland, was also a candidate for the Municipal office. Mr. Phillips was also a candidate for the Municipal office. Mr. Phillips was also a candidate for the Municipal office.

CARLSLAND NOTES

The T.P.A., who drive, held at Berquett's, on Friday, the 27th, was a huge success. Several persons were unable to come on account of the snow, but about thirty were present, nevertheless. Everyone enjoyed an excellent time. Three ladies, Mrs. O. Fitchett, Mrs. B. B. and Mrs. L. A. Phillips tied for first prize. The winner was decided by cutting the cake. Mrs. L. A. Phillips was the prize winner. Bert Dwyer was the lucky for the girls. The consolation prizes were awarded to Mrs. Simson and J. Dalton. Another similar drive will be held in two weeks.

By-Law No. 64 To Repeal By-Law No. 12

A By-Law to restrain and regulate the running at large or free passage of animals, and By-Law No. 65 to divide Municipal District into divisions as per Sec. 46, M.D. Act. Public Notice is hereby given that a vote will be taken on the above mentioned By-Laws No. 64 and No. 65 at the Municipal District of Bow Valley, No. 219, and the polling will take place on Monday, the 27th day of February, 1922, from nine o'clock in the forenoon to five o'clock in the afternoon at: No. 1 McIntosh Store, Namaka, No. 2 T. Barkerfield real estate, No. 3 H.H. Hardware, Carlsland, No. 4 Municipal Office, No. 6 Ladies Hall, Chandle, and that I will at Strathmore on Friday, the third day of March, 1922, at 12 o'clock noon, sum up the votes and declare the result of the poll.

Given under my hand this 26th day of January, 1922.

Grasshoppers

Councillor Wheeler said that he took issue with the other Councillors on the grasshopper question. He believed that the Municipality should be the poison, but they should not distribute it free. They should charge for it at least. The Hospital question was on the programme but time did not permit of it being fully discussed and the same applied to the first Law and other subjects that were up for discussion.

THE T.P.A. will hold some sort of entertainment on St. Patrick's evening.

Mr. Melchard had the misfortune to lose two horses from racing when the snow was very bad. It was decided to hold a debate on Tuesday evening next.

The Carlin Hill dances were well attended. All present enjoyed themselves.

The Farmers' Institute will be at Carlsland on the 25th.

Local Notings

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68

Mr. Harry Akerman has visited a home on First Street, and is now in the city.

On Monday, February 27, a new and most dance in Strathmore is being held at the Avon Club by the local Strathmore. Every dancer who was nervous or overdone. This mountain dance is not for dancers alone, as a stage will be provided to use the outer circle of the band around the dancers. Strathmore had been in attendance.

The well-known Nightingale Quartet will visit Strathmore on Friday, March 2. The quartet present their new 1922 show of songs, dances, etc. Judging from shows put on here in the past by the Nightingale Quartet, this will prove to be a first-class entertainment. This is not a money-making scheme for Nightingale, as they are giving the proceeds to the Memorial Hall Building Fund. In Strathmore, can it be their own? No way, Strathmore can at least give them their support and patronage in this occasion.

Who is "The Woman and Child"? See this Paramount-Competition picture at the Memorial Hall next Wednesday. It will prove a revelation to you.

Was Anna Johnson justified in driving her common law husband out of town? "The Woman and Child," a big Paramount-Competition picture which comes to the Memorial Hall next Wednesday. It is a great story of the romance of a dancing woman's life.

Another of a series of U.F.A. dances was held in Calmhall school on Friday 17th, and was a great success in spite of the cold night. A large crowd being present. It was generally agreed that it is better to attend and have a pleasant evening than to stay at home and brood over the hard times.

On Tuesday, March 7th, Strathmore Club will hold a Musical White Drive in the Memorial Hall to which Mr. and Mrs. Strathmore and family are cordially invited. The games to be played are whist, bridge and five hundred, and all lovers of a good game of cards are assured of a very interesting time. There will be sixteen splendid prizes, valued at sixty dollars. Arrangements are being made to accommodate three hundred players. Further particulars as to time and admission charges will be shown on posters in a few days.

We are in receipt of a letter from a brother subscriber expressing his appreciation of the Standard.

A box social and dance will be held at Alton school on Friday evening. Good music. Everyone welcome. 22-2p

We heard last week from a Strathmore old-timer, A. R. McFerson. He is in khaki at Camp Borden, Ontario, as a member of the Canadian Air Force, with the rank of corporal. "Rotty" descends with great appreciation on the benefits of living across the river from Quebec, and the spiritual advantages to be gained from an occasional trip to that favored province.

Friday of this week is the date of the big Rose Carnival to be held in the Memorial Hall under the auspices of the Strathmore Dramatic Society. The event is being looked forward to with a great deal of expectation by many both in town and country alike. The committee in charge are leaving nothing undone to assure a good time to everyone who attends. The carnival is not intended to be a money-making venture, but is being held for the sole purpose of giving those attending a first-class time.

The population of Strathmore rose appreciably during the first part of last week, with the following blazes: Frank Peterson 85c. The list is still Mr. and Mrs. W. Dunne, a daughter, both on Monday; Mr. and Mrs. Atchill, a daughter, Tuesday; and Mr. and Mrs. W. Allen, a son, on Wednesday. The two latter happy events occurred at Strathmore hospital.

Kitchen Range, Singer Sewing Machine, Coal Range, 100 lbs. of Lard, Bed, Heater, Magnet Screen Separator, Oilcloth, Churn, etc.

Terms Cash. Luncheon Provided

Auctioneer, A. LAYZELL, Calgary

According to a cable message from England to the Toronto Mail and Express, a wave of strikes is sweeping England. The annual reports handed in by the various trade unions show that in Canterbury, Kent, with a population of 24,000, there were only seven convictions for drunkenness, while at Leicester, with a population of 6,000, there were no convictions for drunkenness at all. This compares very favorably with provincial averages.

Mr. George T. Berry has just imported two Buff Orington roosters. These birds are bred from a \$2,000 pen of the famous McArthur egg producing strain.

Constable T. H. Falkenberg is leaving the municipal force shortly to take up farming at Pincher Creek. During his years in Strathmore Constable Falkenberg has proved a very efficient officer, at the same time holding the good will of the people of the district, and his departure will be regretted. At the same time all will wish him success in his farming operations.

Mrs. F. M. Dwyer left on Wednesday for a visit to her parents in California.

The annual meeting of Strathmore U.F.A. was held at Alton school last Friday evening under the auspices of Strathmore U.F.A. was well attended, and realized a clear profit of \$32 to the U.F.A. fund. Everyone had a most enjoyable time.

An important meeting of Strathmore U.F.A. will be held in the King Edward Hotel on Saturday night. The meeting is urged to be present. Some important reports will be presented, and the meeting will take place in the Hotel. The formation of a "Red Lion" will also be taken up. The strong wind which came on Monday afternoon made it hard travel for many of those returning home from the annual Municipal meeting, and the driving considerably. This week the cold spell still continues. The temperature has now been around zero for a clear fortnight.

It is intended to hold a meeting of the Community Club on the 24th Monday in March. The multiplicity of other events since the new year opened has prevented a meeting at an earlier date.

Strathmore Masonic Lodge continues to hold a social evening for members and their lady friends on March 20th.

Mr. and Mrs. W. F. Howells returned from a visit to the Old Country on Friday evening. They had a rather short stay there but report a very enjoyable time while on their visit.

Mr. S. Freer, representing McLean Publications was in town last week looking into local trade conditions and the probabilities of building expansion this summer.

Mr. Jas. Nelson, of the Bow Valley ranch, Carleton Place, returned home last week, after spending most of the winter in the States, where he visited in Minnesota, Chicago, etc. He reports that in these sections of the country they had enjoyed a mild winter up to the time he left. Farming conditions were much depressed owing to the low price of farm products.

Lunches for School Children

At the regular meeting held last Thursday, Strathmore School Board has been given a communication from the W.C.A. Institute asking the co-operation of the Board in providing facilities for luncheon for school children whose homes were distant from the school.

Board heartily approved of the plan, on condition that the parents of the children provided for with the food, the Board providing the range and fuel. The Women's Institute are contributing ten dollars to the initial expenses.

The Board renewed two insurance policies which had fallen due unexpectedly owing to the failure of the Western Mutual Insurance Company of Dubuque.

Toronto, Ont.—A newspaper report from Chicago states that fish caught in the Canadian Northwest, transported long distances by dog sleds and horse-drawn sleighs, and then shipped more than a thousand miles by lake, are being sold on the Chicago market. Two carloads of fish from Lake Winnipeg, Winnipegosis and Manitoba, were recently disposed of at Chicago.

Calgary, Alta.—The Board of Trade has adopted a resolution calling on all members of parliament to see Canada first before they enter upon their legislative duties. The argument is that they will, in this manner, increase their knowledge of many local, agricultural and development problems when they are seeing the Dominion at first hand and will be enabled to deal more efficiently with national problems as they come up.

Strathmore Silo Plan Worth Millions

The experiment with a trench silo that has this winter been carried out at the Canadian Pacific experimental farm at Strathmore, has turned out exceedingly well, according to G. H. Hume, superintendent of the new cultural and animal industry branch of the Canadian Pacific. Hume says that the silo, which was built by the Hume family on Tuesday that this method of storing feed for cattle would save millions of dollars in the future in the country, particularly the farmers of the south.

At No Cost

The concluding feature of the silo is that there is little cost attaching to it. All that is required is the farmer's labor. The trench at Strathmore, he said, was dug about thirty feet deep, sixteen feet wide, and about thirty feet long. The cutting back for chopping the sunflower, was set up on the trench, and so arranged as to blow the slugs into the trench where it was distributed and well tramped. When the trench was full it was covered with a thickness of four one and a half to two feet of straw.

This," said Mr. Hume.

"This," said Mr. Hume, "has been cut at the end of the trench, just in the same way as one might cut a loaf of bread, and the slugs by this way has been kept in excellent condition."

Holds 90 Tons

This simply constructed silo, he said, would hold about 90 tons of ensilage, sufficient for 20 head of cattle feeding them about 40 to 50 pounds each per day.

In reply to a question, Mr. Hume stated that this plan would not be adopted for farmers just as a beginning as an inexpensive way in which they could provide winter feed. Later on, when they become more prosperous, they could build a silo, possibly more convenient to their farm buildings.

How Idea Originated

Mr. Hume stated that the idea first occurred to him when visiting the farm of Archie McLean, the provincial minister of public works in the provincial government. Mr. McLean had stored some silage in his root cellar and this had turned out very satisfactory.

"There are thousands of farms in Alberta," said Mr. Hume, "where there is not a single cow today. With the adoption of this form of silo every farmer could keep a certain number of head with the full assurance that they would come through the winter quite all right even if there was a short crop of feed. The necessary quantity of sunflowers can be produced on a very limited acreage," he said. "Even with the dry season last year, and on non-irrigated land, there was a yield of twelve tons to the acre. It is therefore safe to assume that with an ordinary season the yield would be very much heavier."

Ice Carnival Enjoyed

Notwithstanding that the thermometer was hovering around zero and that a keen wind was blowing, there was a large turnout to the ice carnival held at the Strathmore rink on Friday last, and many original costumes were in evidence. Music was provided by Strathmore Citizens' Band.

Following were the prize winners: Best ladies costume—F. P. McKenzie. Name. Best girls costume—Beryl Dobson, Chinook Beer. Best ladies costume—Miss Parle, Jack rabbit. Best girls costume—Raymond Breen, Hobo. Boys and Girls comic—May and Jack

TURNER NEWS

Mr. and Mrs. Ray Koss, whose marriage took place at the hotel here at Strathmore on February 15th, returned Friday evening and have taken it homekeeping. The many friends of this estimable young couple, extend their very best wishes.

A meeting of the U.F.A. is being arranged for Tuesday evening. This district is determined to have a real live local in the near future. It is hoped that every farmer in this community will join, if not already a member.

Mrs. Frazer returned home Saturday, after an extended visit with relatives in Toronto.

Mr. and Mrs. McNaught are visiting in Calgary.

Mrs. Walter Koss returned from Strathmore Thursday evening, after attending the wedding of her son Ray.

Several farmers drove in to Strathmore on Monday to attend the tax payers' meeting.

Mrs. Bugden attended the Koss Street wedding at Strathmore.

A club meeting and card party will be held Tuesday in connection with the U.F.A. meeting.

Masquerade Ball

—O—

One of the most successful masquerade Strathmore has ever known, was held in the War Memorial Hall by the U-Girls on Tuesday, February 14th.

The girls, through much hard work, had tastefully decorated the hall and tables for the Valentine occasion, and should be congratulated on the well-arranged and first-class dinner, provided by them. It is hoped that the near future will see further efforts of the girls' enterprise.

Costumes, both elegant and comical were in great profusion. It might be mentioned that more costumes, both elegant and comical, were worn on this occasion than ever before. What might be termed the most original and well-thought-out costume was that worn by Mrs. Knyvett, a snooker table. The well-known game was there in every detail. Many other beautiful costumes were in evidence.

The winners of the prizes and their costumes are as follows:

Best dressed lady—Miss Doris Dehmet. Buttery.

Most original lady—Mrs. Knyvett. Snooker.

Best comic lady—Mrs. F. O. Boertz. Squaw.

Best dressed gent—Stanley Kork. Indian Prince.

Most original gent—H. Bailey. Hootentot.

Best comic gent—L. B. O. Loden. Niger Parson.

Last, but not least, which deserves much credit, was the well costumed Hurtle sledge orchestra. Madam Hurtle directed, and with the orchestra rendered first-class music.

RED CROSS NOTES

The fund for clothing relief in rural districts of the Province is slowly gaining. Donations should be sent to the new Red Cross unit, or to the Provincial Headquarters, O'Sullivan Block, Calgary.

The following contributions have been received: Previously acknowledged \$1562.40. Cumberland School District 39.60. Columbia Red Cross 5.00. Susan Brown, Queenstown 12.00. Graman Red Cross 50.00. Edmonton Red Cross 5.00.

TOTAL

\$1741.40

Butler—Gold Dust Twins. Gents race—A. McFarland.

Boys race—Geo. Gies. Girl's race—Grace Scheer.

Best Lady skater—Mrs. Tompkins. Best Gent skater—L. B. O. Loden.

Judge—Mrs. Garrett. Messrs T. H. Pakenham and A. McFarland. Announcer—P. J. Whyte.

The Saskatchewan Legislature

The Legislatures of the three Prairie Provinces meet in session, at this time of the year, but while those of Alberta and Manitoba are still in session at the time of writing, Saskatchewan's new members have completed their labors. At this time, in an even greater extent than in the case of the other two legislatures, the members of the Saskatchewan Legislature are confronted with many of the same problems, and it will be a matter of some interest, therefore, to follow the course pursued by the several bodies in grappling with the different problems which confront them.

Foremost among the problems which demanded attention at Regina, and which likewise call for consideration at Winnipeg and Edmonton, is that of finance. In other words, devising ways and means whereby a sufficient revenue can be raised to meet necessary expenditures, or, on the contrary, so reducing expenditures without seriously interfering with efficiency in administration and without neglecting the needs of the country, as to bring the Provincial budget within the total of revenue obtainable.

In the Prairie Provinces, Provincial Treasurers are badly handicapped when it comes to increasing revenues as the instruments for so doing that are available to them are few in number and limited in their operations. Unlike the other Provinces, the Prairie Provinces do not enjoy ownership and control of their natural resources, nor is there that accumulated wealth in this new country which is to be found in the older settled parts of Canada and which through succession duties and corporation taxes is made to yield a substantial Provincial revenue. Ontario, for example, is reported to have received to the extent of \$4,000,000 from succession duties alone this year, whereas the amount obtainable in Saskatchewan is a mere bagatelle.

It was natural, therefore, that the Saskatchewan Legislature should yearn most vigorously for a demand for the transfer of the natural resources of the Provinces to the federal government, and the same transfer must now be effected if a serious financial situation is not to become acute, and a still stronger feeling of irritation against the other Provinces develop because of a sense of the injustice now suffered by the West.

Nothing startling in the way of augmenting the revenue was considered in Saskatchewan; rather an attempt was made to endeavor to reduce expenditures to the lowest possible point, consistent with efficiency and proper administration. The idea of imposing a Provincial income tax has not met with favor in Saskatchewan in view of the fact that it would mean a triple income tax, such taxes having already been levied by the Dominion and city and town municipalities.

A second outstanding problem which demanded attention at Regina, and is to be found in the Provinces to the east and west, was the proper enforcement of the prohibition liquor laws. Demands were made on the Government to abandon the present Saskatchewan Temperance Act and to revert to the policy of restricted sale of liquor by the Government itself. To all such demands the Government and Legislature turned a deaf ear, and the view prevailed and was overwhelmingly sustained that every effort should be put forth to give the Act a fair trial. The result was the passage of numerous amendments all designed to further strengthen the Act and show the hopelists through which the lawbreaker could escape and the bootlegger practice his many and various devices.

By resolution the Legislature reaffirmed its position on the Customs tariff by demanding a general lowering of duties on articles of prime necessity to the agricultural producer. Unquestionably there was much more in the contention of H. H. McLeod, of North Okanogan, that, inasmuch as the tariff is subject to Federal legislation and control, and the Legislature was going outside its domain in passing upon it, and in taking such a stand he occupied sound constitutional ground. However, the tariff is no longer a partisan question in Saskatchewan, but it is now regarded purely as an economic issue. As such the present Saskatchewan Legislature, the representatives, felt that it should, as the only body entitled to speak for the whole Province, officially declare its view inasmuch as the tariff undoubtedly has a direct and pronounced effect on the agricultural producer of the Province. The declaration on tariff reduction was, therefore, made with it in the same spirit and from the same economic point of view as the demand for lower freight rates. Entrusted with promoting the welfare of the Province, the Legislature spoke the mind of the people on these questions.

Taken as a whole, the session was uneventful. An unusually large number of bills were introduced, but these, for the most part, were for the purpose of amending existing statutes as exceptions to their administration had demonstrated to be necessary. Unlike preceding sessions, there was no official organized and recognized opposition party. Nevertheless, there was some active institution upon all Government legislation, constructive criticism offered, and the necessary and efficient aid provided to keep the Government abreast in its handling of public business.

men but sent a child welfare nurse to the department, to join the staff of lecturers on the train. This nurse with her knowledge of child welfare work and will also examine any children presented to her with respect to general physical condition. She will be prepared to discuss any matters of health which may be suggested by the audience on the train. This hospital class has been meeting with wonderful success.

Will Sell Church Valuables

Gems and Precious Metals in Russian Church Will Help Poor

The all-Russian Central committee has decided to take new immediate action in the valuable in all the churches of all creeds in Russia and sell them for the benefit of the famine sufferers. The value of the gold and silver candlesticks, the gold covered and jeweled thrones, the chalices and silver vessels is estimated to be considerable, and the weight of the precious metals and jewels alone is reported to total hundreds of millions of dollars.

Veteran War Horse Rings for Food

San Toy, 20-Year-Old Charger, Has New Trick

San Toy, a 20-year-old charger, veteran of two wars, was the hero of the hour when the inmates of the House of Rest for Horses, Westmont Farm, Cheltenham, had their annual feast. That feast, by the way, consisted of carrots, apples, bread and sugar—delicacies which "the friend of man" enjoys as much as his master does him pudding and mince pies.

It is the tradition of San Toy that he went through the whole of the South African war and never missed a day's day. He was saved from a harsh fate at the close of the war, and is spending the evening of his days in comfort and idleness as a pensioner.

The latest trick of the old war horse is to ring a bell, placed inside his cell with a long cord attached, so summoning the groom to attend to his wants.

Sentenced to Death No Appeal Possible

The death warrant is passed out every time a court is called with Palmer's Corn Extractor. It means the end of the corn. STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is especially hard on children. The doctors make it necessary for the mother to keep them in the house. They are often confined to bed, and badly ventilated rooms and early colds which result in pneumonia. To guard against this a lot of baby's own Tablets are given to the baby in an occasional dose. These tablets are given to the baby in an occasional dose. These tablets are given to the baby in an occasional dose.

We shall have smiling friends as long as we keep still and let our money do the talking for us.

What This Buffalo Physician Has Done For Humanity

The picture which appears here of Dr. F. J. Ross, of Buffalo, N.Y., was taken in 1914. At a young man Dr. Ross practiced medicine in Pennsylvania and was known far and wide for his great success in alleviating disease. He came to Buffalo and gave his medical services free to the poor. He was a man of great kindness and was known far and wide for his great success in alleviating disease. He was a man of great kindness and was known far and wide for his great success in alleviating disease.

Canada Offers Advantages

Needs of Dominion for Increase in Population is Shown

Sir Augustus M. Nathan, of Winnipeg, speaking at a Canadian gathering in London, said that one of Canada's greatest needs was an increase in population. He suggested that there was a little more trade between Canada and the United Kingdom, Canadian products, he said, came to the British Isles in very meagre quantities.

The action of the United States in increasing her tariff against Canada, said Sir Augustus, rendered the time never more opportune for Great Britain to increase Canadian trade.

A suggestion that British manufacturers should establish themselves in Canada, with branch plants from which to handle world trade was made by Sir Augustus. These plants would give some of Britain's unemployed population work, and in the unsettled climate and this arrangement would to some extent lighten the strain on British coal.

It was an error, said the speaker, to think that immigration would take care of itself. He hoped that the government or both countries would work together to prevent the foreign element in Canada increasing by the work of the staff there properly housed.

Sir Augustus said Canada ought to have adequate representation in London, with the staff there properly housed.

When Your Appetite Fails This Is What You Need

When the very thoughts of eating food, the old story, "one's run down stomach" had taken upon a meal, intermingling with Dr. Hamilton's Food. They lose up for liver, assist the stomach and improve digestion. The food is made of the best of foodstuffs, and is easy to digest. It is a food that is easy to digest. It is a food that is easy to digest.

Canadian Goods Setting

Canada's exports trade to Great Britain and Europe is slowly but steadily improving. Canadian canned salmon is moving again more freely at a fair price. This is selling well. Canadian flour and grain have been selling much more freely in the London market than hitherto.

One of the big grain elevators in Montreal.

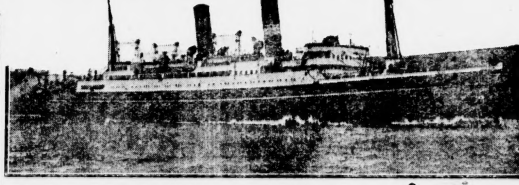

Mammoth Grain Elevators at Montreal.

8

BY COURTESY OF C.P.R.

The new Canadian Pacific liner "Montcalm" 16,200 tons, will run between Montreal and Europe next season.

That the second largest port in America is five hundred miles from an ocean, may appear an impossibility to many. However, it is a fact. Montreal, the metropolis of Canada and the fifth city of North America is the port on the St. Lawrence River, 250 miles nearer to Liverpool than is New York.

The vast tonnage of grains grown on the western plains of Canada and the United States, a large proportion of which is shipped to Europe, has been the main factor in the development of the Port of Montreal which is today the principal American port for the export of grain. This grain is brought by train and lake boats to two mammoth elevators in Montreal and from there loaded into ocean freighters. Nine boats can be loaded simultaneously from these store-houses.

In order to handle the millions of bushels of grain expeditiously this harbor is equipped with sixty miles of railway and twelve miles of wharfrage. Harbor improvements have absorbed over thirty millions of dollars and additional improvements have been planned which will call for more millions. To-day the harbor can accommodate one hundred steamships from 850 to 750 feet in length, providing depths of twenty-five to thirty-five feet of water. During 1921 twelve steamships which is today the principal American port for the export of grain. This grain is brought by train and lake boats to two mammoth elevators in Montreal and from there loaded into ocean freighters. Nine boats can be loaded simultaneously from these store-houses.

season and during this past season exported 119,602,180 bushels of grain. This was more than twice last year's volume and over forty-four millions more than the previous record year of 1914. Export of Canadian cattle is growing in such proportions that more boats are needed. About twenty additional trans-Atlantic passenger steamers are scheduled to use Montreal as their western port and additional cargo steamers are also expected to stop between the Canadian metropolis and European ports. This delightful French-Canadian city, whose site was selected by Champlain, and which has been popular with tourists because of its historical features, is fast becoming a great commercial centre.
